Make Yourself Over And Be **scene** hair

Each month Scene Hair transforms one lucky person with a fresh, new look. This month Anna Knvtas receives a makeover with a modern twist.

Hair

by Sarah-Jane

Anna needed a major change, but the style had to be easily maintained with a modern twist. To create this look I worked freehand for the entire hair cut to give a broken feel with soft texture. I really wanted to move on from the fringe that everyone is sporting at the moment, so I have used the hair to frame her face instead.

Hair tip

If you can stand it, try not to wash your hair with shampoo every single day. For days that you do not wash your hair, apply a fragrant mist designed especially to refresh tresses.

Colour

by Sarah-Jane

To achieve the beautiful honey blonde, I used a balayage technique which incorporates smudging complementary colours together to create a beautiful mix of wheat golden blondes and soft pink golds, which complement Anna's skin perfectly.

Make-up tip Your make-up should complement your skin tone, and not be chosen to match an outfit.

Make-up

by Elaine

Make-up was chosen to give Anna's a soft but slightly edgy look. The colours were chosen to complement her gorgeous golden skin tone.
