

Tropical Haven

Looking for a home that offers gorgeous views, a luxurious, tropical lifestyle and unequalled sophistication? **JANESSA EKERT** discovers a Balinese beauty that would make any homeowner feel on holidays all year round.

Located roughly 200m from the beach, at Clifton Beach, is this stunning two-storey home. Set within lush, tropical gardens and manicured lawns, it boasts a unique design that combines a stylish, contemporary look with a hint of Asian architecture and the result is a beachside masterpiece any homeowner would be lucky to own.

This striking home is eye catching from the moment you take in the sharp exterior lines and bold colours. The unique design showcases a rare versatility, with its central open plan perfect for living and entertaining. Outside, there is a spacious remote control double garage, while the beautiful undercover porch welcomes prospective buyers through the door.

The exterior's chic and elegance is repeated inside in a series of soft cream colours and bold wooden detail. The open plan kitchen, living and dining rooms are breathtaking, with each room flowing into the next. The kitchen, with its turquoise feature wall stands out, drawing your attention to its beautiful yet practical design and top of the line Bosch appliances. The island bench, which incorporates a dishwasher and

breakfast bar, features black granite bench tops, glass splash back and oversized sink. Its clever design and generous layout proves there can be more than one cook in the kitchen.

Floor to ceiling glass sliding doors in both the living and dining rooms lead to a large, undercover patio perfect for alfresco dining and entertaining guests. Even more notable is that this inviting space overlooks a stunning fully tiled, solar heated, in-ground I-shaped pool and inbuilt waterfall. In addition, the home encompasses another two separate outdoor living areas including a gorgeous thatched pavilion, which is accessed via a footbridge over the swimming pool.

In total the home features three air-conditioned, generous-sized bedrooms, as well as three luxurious bathrooms. The bedrooms all include built-in wardrobes and ceiling fans. The impressive sized master bedroom allows room for a private balcony and stunning ensuite fitted with floor to ceiling tiles, his and her vanities and a large combined shower/spa. Equally impressive, the remaining two bathrooms also feature his and her vanities and shower/bath facilities.
